My Y Story Krystal Bryant

My older daughter went to Little Rascals so when it was time to find child care for my younger daughter I knew Little Rascals was the place for her.

We have had a phenomenal experience there. My daughter loves all of her teachers and already knows her letters, number, colors and the names of all of her friends.

The staff is very nice and they keep you up-to-date on what is happening with your child. The Tadpoles app is also very informative. You can see the activities and progress that your child is making and get notifications if you need to bring something in like more diapers.

Miss Heather, the Little Rascals director, is phenomenal. She is very responsive and is easy to talk to. If you need something she has it ready for you right when you arrive.

Another thing I appreciate is that they notify you right away if your child is not feeling well so you can pick up your child and bring them home. This is not only good for your child but also for everyone's safety.

My daughter gets excited to go to school and goes right to her favorite teachers when she arrives. I love the program and would recommend it.
